Bill n Ben Wheelie Bin Men

Our Gated Community and Strata Service.

It's a simple choice! The waste bin needs regular cleaning, as a matter of comfort, health, and pride in your community

When do we Clean?

Our service can be tailored to your specific needs but can include;

- ◇ Placing the full bins to kerb the day before collection day.
- ◇ Cleaning the empty bins after the collection service has been.
- ◇ Returning the clean bins to the waste area(s)
- ◇ Industrial bin(s) cleaned in situ
- ◇ Giving the waste area(s) a general clean and wash as needed to keep them clean and rubbish free.

How do we do clean?

We clean the waste bins using a high pressure water cleaner, using rain water, to remove the following;

- ◇ Waste material
- ◇ Food scraps
- ◇ Mud
- ◇ Dirt
- ◇ Mould
- ◇ Oily marks
- ◇ Spiders
- ◇ Creepy Crawlies
- ◇ Other less desirable items

We absolutely limit the use of cleaning chemicals and detergents. We use only bio-degradable cleaners in severe cases of contamination.

We employ the latest water saving appliances and the water is collected and filtered before being recycled as "grey" water through the local recycle programs.

Finishing the Job!

We spray the bins with a final cleaning and sanitising lotion. This spray is perfumed with citrus to ensure we leave a clean and sweet smelling waste bin.
